

Add Heart Facilitator™ Terms of Use - Each Learner checked a box indicating agreement and compliance with the following:

Thank you for choosing to become an Add Heart™ Facilitator and joining in the mission to help create a more heart-connected world. Our joint vision is that you will actively integrate the tools and techniques contained in the Add Heart Facilitator Course (“AHF Course”) into your life and to share what you have learned with family, friends and others.

Upon completion of this program you will be an Approved Facilitator, joining with others all around the world who are choosing to add the qualities of the heart to their lives and the lives of others. Formal sharing involves guiding people through a process; taking them through an experience of heart-focused breathing, adding a regenerative emotion, radiating a heart quality and/or using the Inner Balance Trainer.

You will learn basic HeartMath® concepts, science, an effective three step technique for adding heart and how to use your Inner Balance™ Trainer. You will be instructed on how to share this information in personal and professional situations.

You will not have a license to commercialize the information you learn. That is, you won’t be able to advertise using HeartMath trademarks nor charge for standalone HeartMath services. But of course, you are allowed to share your learning as part of other professional services you provide.

This is a self-paced program, which you will have a full 60 days to complete, so take your time with the material. What’s important is that you experience the feeling of what you’re learning. Your practice, making a connection with your own heart’s intelligence, will give you a greater ability to impact the lives of others in more meaningful ways.

In the AHF Course, you will be able to download materials from HeartMath that are copyrighted. You may use these copyrighted materials for your personal use and to share with others as learned in the AHF Course. Only the materials specifically designated for download may be downloaded, copied, or otherwise reproduced. The copying, downloading, or reproducing in any way of any of the course modules is strictly prohibited.

In order to assure intellectual property rights protection, you agree that you will not use the HeartMath trademarks and copyrighted information in handouts, slides, books, articles, Web sites, media outlets, etc. See www.heartmath.com/trademarks for a complete list of HeartMath trademarks.

We mutually agree that taking or completing this course does not make you an employee of nor do you represent the HeartMath companies. HeartMath is not liable for your actions and you are not liable for HeartMath’s actions.

This Agreement has no end date, but your access to the AHF course may be terminated immediately if you violate the Terms of Use for the AHF Course. These Terms of Use are signed electronically when first registering in the AHF Course and have the same effect as if signed on paper.
